

Associate Manager Program

About the Program

The Associate Manager Program is designed to develop employees for future leadership roles with the credit union. Associates gain valuable experience through classroom training and practical on-the-job experience in addition to completing a job rotation cycle, attending regular meetings with a mentor, and participating in management training courses and seminars. Associates are responsible for learning all aspects of retail banking, commercial banking, consumer lending, and mortgage lending to ensure timely, accurate, and efficient member service.

Qualifications for Training Program

Qualified candidates will possess a Bachelor's Degree in a business-related field and will have demonstrated leadership in their academic and previous work-related experiences.

Strong analytical, communication, and time management skills

Ability to work independently and in a team environment
